

## **Corridor Company Expands Contract Management e-Signature Integration With Adobe Sign**

*Corridor Company broadens its contract management platform capabilities by adding support for Adobe Sign.*

NEWBURYPORT, Mass. ([PRWEB](#)) January 14, 2020 -- Corridor Company, Inc., the leading provider of enterprise contract management solutions on Microsoft Office 365, has announced further advancement to its product offerings with the addition of support for the market-leading e-signature solution, Adobe Sign.

Adobe Sign enables over half of the Fortune 100 with fast and secure signatures, contributing to the more than 8 billion electronic signature transactions that were processed through Adobe Document Cloud in 2019.

"We've seen a significant increase in customer demand for an integration with Adobe Sign", stated Russ Edelman, Corridor Company CEO. "Our flagship product, Contracts 365 is built on Office 365. As the preferred e-signature solution for Office 365, adding support for Adobe Sign was a natural step forward that will help us appeal to a broader yet highly aligned audience."

"With the integration of Adobe Sign, Contracts 365 provides users a complete, closed loop contracting process. Sending the contract out for signature, receiving it back into the system, updating the contract status, and triggering subsequent workflow steps can be fully automated every step of the way", added Edelman.

The Adobe Sign integration is available immediately for new and existing customers of Contracts 365.
