

## **Bell Partners Inc. Deploys Corridor Company's Contracts 365 to Streamline Property Management Contract Processes**

*Real Estate Investment and Management Market Leader Rolls Out Contracts 365 Contract Management Software Platform Enterprise-Wide.*

NEWBURYPORT, Mass. ([PRWEB](#)) November 11, 2020 -- Corridor Company, a leading [enterprise contract management software](#) vendor for Microsoft 365 customers, today announced Bell Partners, Inc., a leading apartment investment and management company, has completed the initial deployment of Contracts 365 to serve as its foundation for enterprise-wide contract management.

Bell Partners initially selected Contracts 365 during its quest to replace an outdated legacy application. Ease of use and configurability were high priority requirements, as was the ability to support a variety of diverse users from Operations, Property Management, Procurement, and Executive Management.

“Empowering our property managers to manage all of their own contracts while ensuring corporate approval requirements were automatically enforced was the first problem we were looking to solve,” said David Dorich, Bell Partners Procurement Manager. “Since the rollout, Contracts 365 has made our property managers more decisive and efficient in their roles and provides our leadership with the data required for informed decision making.”

“Aside from the functional requirements on our list, we insisted on working with a company that had expertise in the property management space and also embraced our vision of strategic partnership,” Dorich continued. “The Corridor team continues to over-achieve in these areas.”

“Property management companies have unique contract management challenges, often requiring extreme flexibility to accommodate the distributed business model. Contracts 365 was purposefully designed to address these scenarios,” said Russ Edelman, CEO of Corridor Company. “We are thrilled to be working with the team at Bell Partners as they leverage Contracts 365 to expand their leadership position in their market.”
